## EXPERIENCE

DSA Mentor Intern

Acciojob

📅 May 2023 – present

- Provided guidance and support to students in understanding complex DSA concepts, algorithms, and data structures.
- Participated in regular team meetings to discuss student progress, share best practices, and brainstorm innovative approaches to optimize the learning experience.resolved 600+ queries till now.

## PROJECTS

STube [Link](#)

reactjs , tailwind css , materialui , rapidapi

- The STube is a web application developed with React.js and integrated with Rapid APIs to recreate the popular video-sharing platform, YouTube. This project aims to replicate the core features and user interface of YouTube, allowing users to browse, search for, and view videos.
- This project allows to gain hands-on experience in building a complex web application, working with APIs.
- The use of Material UI and Tailwind CSS enhances the project's visual appeal and user experience.

Dosify(Covid-19-Vaccination-Booking-Application) [Link](#)

java, spring boot, jpa hibernate , mysql

- Developed a range of APIs for a COVID-19 Vaccination Booking Application, enabling users to manage information, book appointments, and access vaccination certificates.
- Implemented user-related APIs for adding/updating user details, retrieving user lists based on vaccination status and gender, and deleting user records.
- Utilized Spring Boot and integrated Swagger for efficient API development, documentation, and testing.

FlipCommerce [Link](#)

java, spring boot, jpa hibernate , mysql

- Developed FlipCommerce, an e-commerce application with a wide range of APIs for user management, product listing, shopping cart management, order processing.
- Utilized DTOs and transformers to ensure secure and efficient data transfer between client and server, improving maintainability and decoupling the internal domain model from the API layer.
- Developed controllers such as Customer Controller, Seller Controller, Product Controller, Order Controller, Card Controller, and Cart Controller to handle specific operations and provide APIs for managing corresponding data entities.
- Implemented Email-based Notification System.

## EDUCATION

Master of Computer Application

Babasaheb Bhimrao Ambedkar  
University (A Central University),  
Lucknow

📅 July 2020 – June 2023

Bachelor of Science

Mumtaz PG College,Lucknow

📅 July 2017 – June 2020

## SKILLS

### PROFICIENCE

HTML CSS JavaScript Java  
SpringBoot DSA

### FAMILIAR

SQL Git React-Native C/C++

## ACHIEVEMENTS

- Secured 3rd Rank in BBAU University Entrance Exam.
- Leetcode : Solved 200+ Problems [Link](#)
- GFG : Solved 175+ Problems [Link](#)

## COURSEWORK

ACCIOJOB(Online learning  
platform recognized by NSDC)

- Acquired comprehensive knowledge and skills in various areas, including Java programming, Data Structures and Algorithms, MySQL database management, Object-Oriented Programming (OOPs) concepts, and aptitude training.

## CERTIFICATION

- Responsive Web Design [FreeCodeCamp](#)
- Javascript Algorithms And DataStructures [FreeCodeCamp](#)
